

FLEET & MOBILIZATION CAPACITY

EQUIPMENT

GRAPPLE DEBRIS TRUCKS

Self-loading knuckleboom units, 30–40 yd bodies, certified and placarded

40 TON CRANE

Picks over structures: trees on roofs, houses, and utility corridors

75 FT BUCKET TRUCKS

Leaners and hangers over rights of way, worked from the bucket

WHOLE TREE CHIPPERS

18–21 inch drum class, roadside reduction that keeps pace with the grapple trucks

GRAPPLE SKID STEERS

Track loaders with root and brush grapples for lot clearing and loading

MINI ARTICULATING LOADERS

Backyard debris extraction through tight access, without tearing up turf

SELF-PROPELLED STUMP GRINDERS

Stumps ground to grade after removals

LOG TRUCKS & SELF-LOADERS

Large wood hauled to your designated debris management site
